Leading the Way with Continuous Glucose Monitoring (CGM)

BRIEF SAFETY STATEMENT

The Dexcom G4 PLATINUM Continuous Glucose Monitoring System is a glucose monitoring device indicated for detecting trends and tracking patterns in persons (age 18 and older) with diabetes. CONTRAINDICATIONS: Remove the Dexcom G4 PLATINUM System before MRI, CT scan, or diathermy treatment. Taking acetaminophen while wearing the sensor may falsely raise your sensor glucose readings. WARNING: Do not use the Dexcom G4 PLATINUM for treatment decisions. The Dexcom G4 PLATINUM does not replace a blood glucose meter. If a sensor breaks and no portion of it is visible above the skin, do not attempt to remove it. Seek professional medical help if you have infection or inflammation. Report broken sensors to Dexcom Technical Support. The Dexcom G4 PLATINUM is not approved for use in children or adolescents, pregnant women or persons on dialysis. Sensor placement is not approved for sites other than under the skin of the belly (abdomen). Contact Dexcom Toll Free at 877-339-2664 or www.dexcom.com for detailed indications for use and safety information.

Dexcom is pleased to invite you to a professional education program to enhance your practice's use of CGM. Dexcom is committed to providing health care professionals with ongoing education forums to support the successful use of both professional and personal CGM and the Dexcom G4 PLATINUM.

Please join us at our upcoming program. See details below.
